

### Facestock

A matt transparent polyester with ink and toner receptive topcoat.

Basis Weight	59 g/m <sup>2</sup>	ISO 536
Caliper	55 µm	ISO 534

### Adhesive

S4700 is a clear emulsion adhesive for demanding labelling applications.

### Liner

Hygroflat 100 FSC, a one side coated, bleached kraft paper.

The liner is made from FSC® certified paper (FSC Mix Credit, chain-of-custody number: CU-COC-807907, Licence Code: FSC-C004451).

Basis Weight	100 g/m <sup>2</sup>	ISO 536
Caliper	108 µm	ISO 534

### Laminate

Total Caliper	184 µm±10%	ISO 534
---------------	------------	---------

### Performance Data

Initial Tack	15 N/25mm	FTM 9 Glass
Peel Adhesion 90°	8 N/25mm	FTM 2 St.St.
Min. Application Temp.	0 °C	
Service Temperature	-20 °C to 80 °C	

### Adhesive Performance

S4700 is a clear permanent adhesive featuring excellent initial tack, adhesion and “wet-out” performance even on rough apolar surfaces such as HDPE. Improved temperature water, solvent and chemical resistance.

### Applications and Use

The product is primarily aimed at inventory and address labels for office use.

The hygroflat backing paper is specially suited to the more critical refolding demands of high-speed computer printers, providing optimum layflatness and excellent interfolding characteristics.

### Conversion and Printing

The inkjet matt transparent polyester is specially designed for sheet fed inkjet printing, providing optimal flatness during conversion, storage and the inkjet printing processing. Being relatively rigid, the film will not conform well to non-uniform or complex shaped surfaces. It is recommended that, when applicable, pre-printing by the roll label converter is via a low ink transfer method such as flexo. While it is possible to print via other conventional technologies it is recommended to test these first in case they effect the sensitive film surface.

### Shelf Life

To obtain optimal performance, use this product within two years of the date of manufacture, under storage conditions as defined by FINAT (20-25°C; 40-50%RH). Prolonged storage outside these conditions might reduce the shelf life.
